Objectives

Investment objective The objective of the Fund is to track the performance of global emerging market equities.

The Fund is an index tracking fund (also known as a passively managed fund).

Investment policies The investment policy of the Fund is to track the performance of the MSCI Emerging Markets Screened Choice Index (or any other index determined by the Directors from time to time to track substantially the same market as the Index) as closely as possible while seeking to minimize as far as possible the tracking difference between the Fund's performance and that of the Index.
The Index represents the performance of the broad global emerging equity markets while excluding companies that fail to comply with UNGC Principles or are associated with controversial weapons civilian firearms, nuclear weapons, fossil fuel extraction, thermal coal power, and tobacco.
The Fund promotes environmental or social characteristics in accordance with SFDR Article 8. These environmental and social characteristics are detailed in the SFDR Annex of the Fund's Supplement.

The proportion of the Fund's portfolio invested in securities included in the Index will constitute sustainability indicator used to measure the attainment of each of the environmental or social characteristics promoted by the Fund.

The Investment Manager integrates Sustainability Risk into its investment decisions as further described in the ""ESG Integration"" sub-section of the ""ESG Investing"" section of the Prospectus.
