Heating and Cooling is the Next Energy Revolution

Geothermal Heating and Cooling is the Best Solution for Cities

Renewable

Baseload

Profitable

A New Vision

BlueSky a new funding entity behind my stake in Arctic Green and underlying subsidiaries and JVs including SGE

- ✓ Geothermal Heating & Cooling
- ✓ Geothermal Electricity
- ✓ Sector Coupling
 - Solutions and Products that co-generate with Geothermal such as:
 - Other Renewables
 - New Geothermal Applications
 - AI driven energy management software

Expansion Targets Within Reach:

- ✓ The Global Leader in the Next Energy Revolution, Clean Heating & Cooling
- ✓ 50 million tons of CO₂ saved
- ✓ 1/3 to 1/2 of the world's active geothermal wells

The Opportunity

BlueSky is inviting expressions of interest from investors to participate in a fast-expanding green energy machine that has been generating value 24/7 for a decade and a half

The underlying companies are recognized by the geothermal industry as not only the largest and fastest growing but also the best

We have built a pipeline worth billions and our track record speaks for itself

The Next Energy Revolution is clean heating and cooling. Arctic Green and Sinopec Green are the industry leaders

Join us in this adventure and change the world

The Next
Energy Revolution
is
Clean Heating & Cooling
of Cities
